About us...

One of 13 regional energy agencies in Sweden

Our work is mainly based on cooperation in regional networks and on projects.

Networks: Municipality Network for Sustainable Development, Network for the Local Energy and Climate Advisors in the county of Västra Götaland and Network for Vehicles and transport.

We run projects on local, regional, national and sometimes European level to promote sustainable development in general and sustainable energy usage in particular.

Local Energy and Climate Advisors

- *290 municipalities in Sweden, all has a local Energy and Climate Advisor*
- *Financing from the Swedish Energy Agency (Government)*
- *Gives impartial, free advice*
- *To: public, SME and organisations*

Energirådgivarna (Energy Advisors) at your service

- Our members are municipal energy and climate advisors and consultants working with energy efficiency
- We are training our members and other interested parties in the full range of energy efficiency
- We aim at certification of the staff for energy efficiency companies
- We are developing the systems for energy certification of buildings
- We are briefing politicians and administrations
- We empower the energy users

Alice and the energy user have the same problem

- **Would you tell me, please, which way I ought to go from here, said Alice**
- **That depends a good deal on where you want to get to, said the Cat**
- **I don't much care where-- said Alice.**
- **Then it doesn't matter which way you go, said the Cat**
