## Sunrise in the west

### Main goals

- Increase the number of solarinstallations in Västra Götaland (both heating and electricity)
- Stimulate the growth and secure the quality in solar companies in the region

The project period is october 2006 – june 2011

Sunrise in the west

## Activities

- Study tours
- Certification for solar heating installers
- Educations for consultants
- Municipal studies of solar potential
- European Solar Days 2010
- Brochures
- Seminars

*"Wash your hands in solar heated water"*

## Sunrise in the west

### ***The work continues...***

- *An Interreg project with Skåne (Sweden) and Denmark concerning solar energy*
- *We are interested in finding partners to continue the work with solar energy.*
